### By [Author Name]

This book features 99 stunning island house construction photos from the Global Islands Project. From modest retreats to luxurious mansions, these photos showcase the beauty and ingenuity of island home design.

The Global Islands Project is a non-profit organization that works to promote sustainable island development. The project has built over 100 homes on islands around the world, and these photos provide a glimpse into the challenges and rewards of island living.

The homes featured in this book are as diverse as the islands they are built on. There are small, simple homes that are perfect for a weekend getaway, and there are large, luxurious homes that are fit for a king. There are homes built on stilts, homes built on hillsides, and homes built on the water.

No matter what your budget or lifestyle, you are sure to find inspiration in these photos. Whether you are dreaming of building your own island home or simply want to enjoy the beauty of island living, this book is a must-have.
