**Affair of the Heart** is a comprehensive and captivating account of the British theatre scene from 1992 to 2024, exploring its pivotal moments, influential productions, and iconic figures.

The book begins with a look at the state of British theatre in 1992, a time of great change and upheaval. The Thatcher era was coming to an end, and with it, the Conservative government's support for the arts. This led to a period of financial uncertainty for many theatres, and a number of them were forced to close.

However, this period of turmoil also saw the emergence of a new generation of theatre makers, who were determined to challenge the status quo. These young artists were inspired by the work of directors such as Max Stafford-Clark and Nicholas Hytner, and they were eager to create theatre that was relevant to the lives of contemporary audiences.

As the book progresses, it tracks the development of British theatre through the 1990s, 2000s, and 2010s. It examines the rise of new playwrights such as Sarah Kane, Mark Ravenhill, and Polly Stenham, and it explores the impact of globalization on the British theatre scene.

**Affair of the Heart** is a must-read for anyone interested in British theatre. It is a comprehensive and insightful account of one of the most exciting and vibrant periods in its history.
