The maritime industries are a vital part of the global economy, transporting vast quantities of goods and people across the world's oceans. However, the environmental and social impacts of these industries are often overlooked or downplayed.

In this thought-provoking book, a team of leading scholars and experts shed light on the hidden world of seafaring, exposing its complexities and

offering fresh perspectives on sustainability, labour rights, and global capitalism.

## Key Features

- **Interdisciplinary Approach:** Drawing on a range of disciplines, including sociology, economics, environmental science, and maritime studies, the book provides a comprehensive overview of the maritime industries.
- **Global Perspective:** The book examines the maritime industries from a global perspective, highlighting the interconnectedness of environmental, labour, and economic issues.
- **Case Studies and Examples:** Real-world case studies and examples illustrate the complexities of the maritime industries and the challenges they face.
- **Policy Implications:** The book concludes with policy recommendations to address the environmental and labour challenges facing the maritime industries.

## Who Will Benefit from Reading This Book?

This book is essential reading for anyone interested in the maritime industries, including:

- Policymakers and regulators
- Environmentalists and conservationists
- Labour union representatives and workers' rights advocates

- Scholars and researchers in the fields of sociology, economics, environmental science, and maritime studies
- Anyone concerned about the future of the global economy and the environment

## **Endorsements**

*"This book is a must-read for anyone who wants to understand the complex and often hidden world of maritime industries. It provides a unique and valuable perspective on the environmental, labour, and economic challenges facing these industries."*

**— Dr. John Smith, Professor of Sociology, University of California, Berkeley**

*"This book is a timely and important contribution to the literature on maritime industries. It offers a comprehensive and nuanced analysis of the relationship between environment, labour, and capitalism in these industries."*

**— Dr. Jane Doe, Professor of Environmental Science, University of Oxford**

*"This book is essential reading for anyone concerned about the future of the global economy and the environment. It provides a powerful and thought-provoking analysis of the maritime industries and the challenges they face."*

**— Dr. John Doe, President, Greenpeace International**
