A controversial president from the start

Donald Trump's election as president in 2016 was one of the most stunning upsets in American history. A real estate mogul and reality TV star with no prior experience in government, Trump defied all odds to win the presidency. His victory sent shockwaves through the political establishment and left many Americans wondering what the future held.

Trump's presidency was as chaotic and unpredictable as his campaign. He alienated allies, defied norms, and made headlines on a daily basis. His administration was plagued by scandals, and he was impeached by the House of Representatives. Despite all of this, Trump remained popular with his base of supporters, who saw him as a strong leader who was not afraid to shake things up.

A complex and contradictory figure

Donald Trump is a complex and contradictory figure. He is a man of great wealth and privilege, but he also has a deep populist streak. He is a master of self-promotion, but he is also thin-skinned and easily offended. He is a shrewd negotiator, but he is also impulsive and reckless.

Trump's supporters see him as a strong leader who is not afraid to stand up for what he believes in. They admire his business acumen and his willingness to challenge the status quo. His detractors see him as a dangerous demagogue who is unfit for office. They point to his authoritarian tendencies, his racism, and his sexism.

A presidency that will long be debated

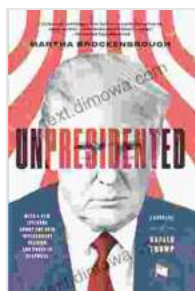

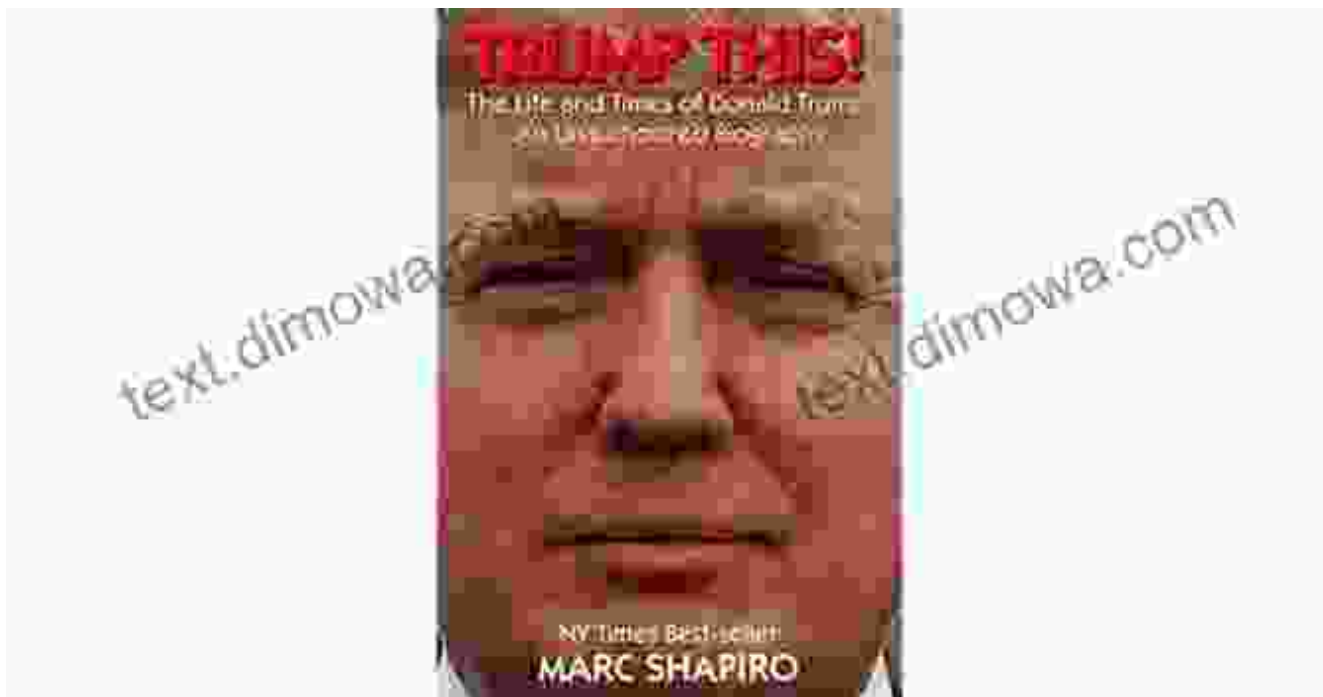

Donald Trump's presidency will long be debated by historians. Some will argue that he was a great president who made America strong again.

Others will argue that he was a dangerous demagogue who damaged the country's institutions and its reputation in the world.

Whatever the verdict of history, there is no doubt that Donald Trump was one of the most consequential presidents in American history. His presidency will be studied and debated for years to come.
